### GUESTS AT WESTMINSTER.

The Longworths Visit the British Parliament.

London, June 15.—Congressman Nicholas Longworth and Mrs. Longworth, accompanied by Secretary Carter of the American embassy, were present yesterday at the annual inspection of the Yeomen of the Guard on the grounds of St. James palace. With Ambassador and Mrs. Reid, Mr. and Mrs. Longworth afterwards dined with Speaker James Lowther of the House of Commons and Mrs. Lowther, and attended the sitting of the House. Mrs. Longworth sat in the ladies' gallery with Mrs. Lowther and Mrs. Reid, Mr. Longworth going to the distinguished strangers' gallery. Earl Percy escorted the party through the House of Lords, and later John Henniker-Heaton entertained them at tea on the terraces of the House, where the leaders of the political parties in the House of Commons and House of Lords were present. The proceedings in the House included questions respecting the Chicago meat packing disclosures.

### COSSACKS RESTIVE.

Beginning to Rebel Against Odious Work of Fighting Russian People.

St. Petersburg, June 15.—Such shrewd judges of the situation as Prof. Milukoff, leader of the Constitutional Democrats, are growing more pessimistic daily. Even the Cossacks are beginning to rebel against the odious work of holding the people in subjection. M. Svesnikoff, a Cossack member of the lower house, claims to have received a thousand letters from Cossack soldiers, saying they are tired of playing the role of oppressors of the people, and adding that the time-honored name of Cossack, formerly synonymous with brave protectors of the country against the ravages of savage hordes on the border lands, was now antithetical, and they desire to right the wrongs they have been compelled to inflict on the nation.

### NEW FRENCH INSURANCE LAW.

Premiums Must Be Put in French Securities.

Paris, June 15.—A decree relative to the regulation of life insurance companies under the new law was published in the official journal yesterday. One article provides that foreign companies shall have a delay of five years in which to replace their present securities, guaranteeing their operation in France and Algeria by securities selected from lists given of the various States, departments and communal securities, of which the companies' reserves will be made up. In other words French premiums must be invested in improved French securities.

### BRITISH OFFICER MASSACRED.

Killed by Natives While on Pigeon-Shooting Trip in Egypt.

Cairo, Egypt, June 15.—Capt. S. C. Bull of the Sixth (Imperial) Dragoons was killed and four other British officers were badly wounded by natives near Tantab Wednesday. During the march of a detachment of British troops from here to Alexandria, the five officers, apparently on the invitation of a village official, went to a hamlet to shoot pigeons. The villagers surrounded the party, seized the officers' guns, and then attacked them with bludgeons.

### LADY MARY HAMILTON WEDS.

Richest Woman in Great Britain Bride of Marquis of Graham.

London, June 15.—Lady Mary Hamilton, only daughter of the late twelfth Duke of Hamilton and Brandon, was married yesterday afternoon at St. George's church, Hanover square, to the Marquis of Graham, eldest son of the Duke of Montrose. King Edward was among those present at the ceremony.

This Space is Controlled by Central Labor Union of Barre and Vicinity.

Attention, Union Men and Their Wives!

The workmen of Barre and vicinity are all unionized and the most of us have a certain pride in being able to show a clear card in our different uniforms. Our employers and merchants are also members of their different associations—in fact, we are what would be practically called a Union town.

But still there is something lacking, for we cannot deny the fact but what the most of the goods for sale in our city are products of organized or convict labor and do not bear the Union Label. This fact is surely not creditable to any of us, and we certainly are not doing our duty to have such a state of affairs in a Union town. Do not seal it in your purchases.

Demand the Union Label Every Time.

## FRISKY AS CHAMPIONS

Boston Nationals Defeat Cincinnati

DORNER PITCHED WELL

While Tenney's Men Hit Wicker at Oppor-

Game Called Off by Rain.

Boston, June 15.—The splendid pitching of Dorner gave the Boston Nationals another victory yesterday afternoon, Cincinnati being the losing team. Up to the ninth inning of the game Dorner was practically invincible, having allowed but one hit. In the ninth two singles, aided by a pass, gave the Reds their only run in a 2 to 1 game. Dorner struck out but one man and gave three passes. The team built up a great game. Tenney's men hit Wicker for seven clean ones and bunched them in the fourth to get their two winning runs.

Brain started off the fourth with a double to left field, and Bates placed a single in right, sending Brain to third. On Howard's sacrifice Brain scored, and then Delehanty singled, sending Bates across the plate. The play proved to be the winning run. Brown, the new catcher, hit into a double play.

That is the way the score remained up to the ninth, although Boston came near scoring in the eighth, when Corcoran dropped Bridwell's pop fly and Tenney sent him along to third with a single. Brain batted and Tenney got caught off the base and tagged. The Reds got their single tally in the ninth as follows: With one down Livingstone singled and Schlei got a pass. The former was out at third on Huggins' attempt, but Schlei went in on Seymour's hit.

SIGN "DUD" DRAKE.

Rutland Ball Team Is Said to Have Him For First.

Rutland, June 15.—It is understood that the initial bag will be held down for the Rutland baseball team of the Northern league the coming season by "Dud" Drake, the well known all round athlete. Drake is a native of Bristol, He was associated at different times with the Pennsylvania medical college, where he graduated the St. Albans team of 1902, and Malone, N. Y. Drake coached the university of Vermont football team last season.

It is rumored that Carrigan and Hoey, who were signed by Rutland, have jumped their contracts.

## CATARH A GERM DISEASE

Breathe Air Medicated by Hyomei and Kill the Germs.

Now that physicians and scientists universally agree that catarrh is a germ disease, the reason for the failure of the old-fashioned stomach-dosing in this trouble is readily seen.

Prior to the discovery of Hyomei, a treatment which cures catarrh by filling the air you breathe with germ-killing and healing medication, statistics showed that at least ninety-seven out of every hundred persons in this state were suffering from catarrh of some form. Although Hyomei has been known only a few years, the remarkable results following its use are shown by the much smaller percentage of those who suffer with catarrh today.

The treatment with Hyomei is very simple and pleasant: A small inhaler comes with every outfit and three or four times a day Hyomei is breathed through this, making the air at that time like that found on the mountains where the pine forests give off their fragrant and healing balsams.

Used in this way, Hyomei penetrates to the most remote cells of the nose, throat and lungs, absolutely killing all catarrhal germs and effecting a complete and permanent cure of the disease.

The complete outfit costs but one dollar, while extra bottles can be obtained for 50 cents. Hickett & Wells have seen such remarkable results from the use of Hyomei that they sell it under an absolute guarantee that it costs nothing unless it cures.

## DETECTIVES FOLLOWING MR. AND MRS. BERKMAN

Emma Goldman Was Not Married Until Wednesday—Agreed to Live Together Two Years.

Rochester, N. Y., June 15.—Closely followed by two Pinkerton detectives hired by Henry C. Frick, the steel magnate, and a detective of the Rochester force, Emma Goldman and Alexander Berkman left Rochester Wednesday afternoon for the West. Although it was reported nearly three weeks ago that Miss Goldman and Berkman were married in Detroit, the ceremony did not occur until Wednesday afternoon.

"We were united according to the Anarchist creed," said Mrs. Goldman-Berkman. "That is, we agreed between ourselves that we would live together as husband and wife for at least two years. If satisfied at the end of that time that married life is a success, we will continue it."

## BID FOR VOTES.

Professional Men and City Merchants in Shameless Act.

Savannah, Ga., June 15.—Shameless buying of votes at the polls marked the Democratic primary here for the nomination of county officers, three representatives in the Legislature and state senators. Only white men and Democrats were allowed to vote and the purchase of ballots was carried on at the polling booths. Professional and business men entered with zest into the vote buying. They stood about the court house waving handfuls of money and bidding for votes. A justice of the peace was among those openly purchasing votes. The prices paid ranged from \$10 to \$40, although \$25 was the amount which was paid in nearly every case. It is estimated that 800 votes were bought, and that the election cost the People's Democratic League, which won, \$100,000.

## Smith's Specific Uric-O REOPEN

For Rheumatism Only

Internal Blood Treatment and Rheumatic Acid Dissolvent.

All sufferers from Rheumatism will hail with delight the new discovery Uric-O. It is made from Nature's herbs and does not contain a single grain of mineral poison. Its action is to neutralize and drive from the system the Uric and Rheumatic acids that cause the trouble. It makes no difference where the pain is located, whether in the muscles, joints or kidneys, Uric-O will search it out and effectually stop it.

Uric-O does not cure every ill to which flesh is liable. It is designed to cure Rheumatism and Rheumatic acid only. It does not contain a drop of alcohol or other stimulating poison and is not a cathartic.

The Red Cross Pharmacy is the home of Uric-O in Barre and you can purchase it of them for \$1.00 a bottle or if you want to test it first, write to the makers, the Smith Drug Co., Syracuse, N. Y., and they will send you a sample by return mail.

## NEW TYPHOID CASES.

Washington Doctor Believes Sudden Changes of Temperature Are Often Responsible.

Washington, June 15.—That typhoid fever is due to other causes than the introduction of the typhus germ into the system through the drinking of polluted water or the eating of polluted food is the assertion made by Dr. William Tindall, secretary to the Board of District Commissioners here. Dr. Tindall has given out a detailed exposition of his theory which is that climatic changes and failure of the respiratory organs to perform their functions properly, after the body has been exposed to sudden changes of temperature, have much to do with causing typhoid.

Dr. Tindall does not entirely discount the germ theory nor does he reject entirely the idea that much typhoid comes from bad ventilation and sewerage. At the same time he is confident that proper attention to climatic changes and to keeping the respiratory system in the right condition will have much effect in warding off the dread disease.

## FOR BIG TUNNEL.

New Terminal Planned in New York Will Cost \$45,000,000.

New York, June 15.—The Union Terminal Company expects to apply to the board of estimate in the near future for a franchise to construct a subway tunnel across Manhattan in the vicinity of Fourteenth street. Through it passengers of the Lackawanna, Erie and other railroads terminating at Jersey City and Hoboken will be carried. The entire cost of the work, including the right of way, is estimated to be about \$45,000,000.

It is proposed to build the subway through Fourteenth street, from the Hudson to the East river, and a six-track tunnel under each river. A union passenger station is to be constructed under Union Square, and it is intended to build a branch subway up Broadway, Madison avenue to the Grand Central depot, and possibly a spur under West Thirty-second street to the Pennsylvania railroad depot.

## FASTEST BATTLESHIP IN NAVY.

The Georgia Maintains a Speed of 19.26 Knots.

Portland, Me., June 15.—The Georgia, a product of the Bath, Me., iron works, proved herself the fastest battleship in the American navy yesterday by maintaining a speed of 19.26 knots an hour for four hours on the official endurance run and accepting a trial of the U. S. Navy's revolutionists by six one-hundredth knots the true speed of the New Jersey, made off the New England coast, March 20. The average of the mean turns of the Georgia's propellers on the run yesterday was 122.28 a minute. Wednesday on the standard trial it was ascertained that 13.4 revolutionists a minute would be required to maintain the contract speed of 19 knots an hour. John S. Hyde, president of the Bath Iron works, despatched the following telegram to Governor Joseph Merrill of Georgia: "Georgia just finished official trial, proving fastest battleship in American navy."

## WILL DISARM COAL GUARDS.

Ohio Citizens Form Law and Order League—Clash Inevitable.

Dillonvale, O., June 15.—The citizens of Smithfield, were held a mass meeting yesterday to protest against what they term high-handed outrages on the part of the United States coal company guards, four of whom Wednesday night were charged with assault and battery. Later they pleaded guilty and were assessed a nominal fine on condition that they would not return to the district until the strike is settled.

At yesterday's meeting a law and order league was formed, which will disarm guards in the employ of the coal company and appoint a corps of assistants to preserve the peace and protect property. The coal company will resist this action, and the conflict of authority will have to be settled in the courts.

## SILVER THROUGH HIS BODY.

Man's Arm Pinned to His Side—Accident Amazes Surgeons.

Clema, N. Y., June 15.—George Lanz, a workman in a lumber mill at Fulton, Ohio, was brought to a hospital in this city with a silver twenty-five inches long and an inch and a half wide sticking through his body from the left side and pinning his right arm firmly to his body. He was working on an edger, when the silver was projected against him with great force.

The surgeons said it was the most remarkable accident in their experience. Though both lungs were pierced, the man was not unconscious, and a severe hemorrhage had not occurred. It was not thought that he would live, however.

## RATE BILL

Conferees Start to Thresh Out

WHOLE SUBJECTS AGAIN

House Wants to Adjourn and Will Work

Longer Hours—To Make Cromwell Answer Senator Morgan.

Washington, June 15.—The conferees on the Railroad Rate bill yesterday practically reopened the entire conference report, reconsidering the agreements previously reached and starting a fresh on the consideration of the Senate amendment. The larger part of the morning session was spent in discussion, with but little progress. The conferees will meet again.

The provisions that the bill should take effect sixty days after passage, increasing the salary of the Interstate Commerce Commission and creating an assistant secretary, which were inserted in the former conference report without authority, were stricken out. No decision was reached on the anti-pass amendment or the amendment including car companies as common carriers, but it is thought that the Senate amendment which permits passes to be issued to railroad employees and their families would be adopted in some modified form.

## WANT TO ADJOURN.

House Decides to Meet at 11 o'clock Daily Hereafter.

Washington, June 15.—Adjournment fever was evident in the House yesterday, this adoption unanimously a resolution to meet at 11 o'clock daily from now on instead of at noon.

The House then, in committee of the whole, resumed consideration of the sundry civil appropriation bill.

## To Make Cromwell Answer.

Washington, June 15.—William Nelson Cromwell will be compelled to answer questions propounded by Senator Morgan if a decision reached yesterday by the Senate committee on intercommerce canals can be upheld. The test will come next Tuesday, to which date the committee adjourned.

## Republican Caucus Delayed.

Washington, June 15.—A call for a caucus of House Republicans has not yet been issued, but probably will be issued yesterday. With the sundry civil bill still before the House, to be followed by the conference report on the agricultural appropriation bill, and with a possible report on the rate bill, it has been thought wise to postpone the caucus.

## TO A MONOPOLY.

Bryan Blames Beef Scandals to Private Control.

New York, June 15.—The Sun has the following interview with W. J. Bryan, obtained by its correspondent at St. Petersburg: "I know nothing about the meat scandals except what I have seen in the European papers. I find that a great deal of notice has been taken of them, and while in Germany I heard the opinion expressed that they would encourage the meat trust, which is the importation of American meat. While a more rigid inspection may seem to furnish the remedy, the real trouble lies deeper. As long as the beef trust has a monopoly, inspection will not only be more necessary, but also more difficult, because the trust will have larger pecuniary interests at stake and can place great temptations before the inspectors."

"The disclosures will prove a public blessing if they help to convince the people that a private monopoly is indefensible and intolerable. This is the position taken in the Democratic platform of 1900 and 1904, and no position on the trust question is sound that does not attack the principle of private monopoly wherever it appears."

## BRYAN IN THE DUMA.

Listens to the Agrarian Debate and Talks With Popular Leaders.

St. Petersburg, June 15.—William J. Bryan was an interested spectator of the proceedings in the lower house of parliament yesterday. During the agrarian debate he occupied a seat in the diplomatic box as the guest of Ambassador Meyer, and during the recess Mr. Bryan discussed the situation with some of the leaders of the House.

Among these leaders was M. Aladin, leader of the Peasant-Workmen group, now denominated the group of Toilers, the most radical element in parliament.

## SPREE COST NEW YORKER \$5,000 CASH TO HIS WIFE

A Journeyman Baker Found Drunk with \$17,000 in His Pocket, Was Made to Disgorge to His Family.

New York, June 15.—In order to obtain his liberty, August Wieder, the journeyman baker of 616 East Twelfth street, Manhattan, arrested in Williamsburg with more than \$17,000 in his possession, agreed Wednesday to give his wife \$5,000. The woman, with her 14-year-old daughter, Annie, lives in scantily furnished rooms in a tenement house at 273 East Tenth street, Manhattan. It was alleged that Wieder abandoned his family two years ago, taking with him nearly \$20,000 which he inherited at the death of his father in Germany. The police had Mrs. Wieder and her daughter in court Wednesday, when Wieder was brought up. He was discomfited when he was confronted by his family. Mrs. Wieder was inclined to prosecute him on a charge of abandonment, but as he was willing to give her \$5,000 she decided not to cause his arrest. The woman nearly collapsed when she received the money. Wieder was fined \$10 for being drunk the day before, paid the fine and later got the balance of his fortune.
